

## American Institute of Bangladesh Studies

## The AIBS Fellowship Final Report

Junior/Dissertation Senior/Post-Doc Pre-Dissertation

Mama.

AIBS requests that you submit a report describing your activities during the tenure of your AIBS Fellowship. The report should be a detailed account of your period of fellowship, including how the opportunity contributed to your research and to the general field of Bangladesh Studies. The report should include a web-ready abstract, up to 500 words in length. The report should also address the following points, in varying detail:

- Please list the archives/libraries/institutions that you contacted and describe your activities at those institutions. Detail your collaboration and how the connection assisted in your work.
- Indicate your research goals and whether you were able to complete your proposed research. If you did not complete your planned research, explain the obstacles that hindered your work and how you plan to complete your project.
- Outline any unexpected opportunities that the fellowship afforded you and how these opportunities contributed to your overall experience.
- Please give the date, title, and number of attendees at your Dhaka Center lecture. Please also describe any additional lectures and/or public presentations given while in Bangladesh.

Please fill out and submit this form along with the two required reports.
